Dear colleagues,

I write to share the absolutely amazing news that Fort Lewis College has been awarded a \$1.5 million Andrew W. [Mellon](#) Foundation "[Humanities for All Times](#)" grant. The grant awardees, Dr. Deanne Grant and Dr. Janine Fitzgerald, will use the funding to create a groundbreaking "All Our Nations Language Revitalization Hub." Please join me in congratulating Deanne and Janine!

Please also [read our FLC press release](#) to learn more about this exciting project, which promises to reshape language preservation, cultural learning, and teaching pedagogy. The Hub project will include summer language programs, community-based courses, and an FLC certificate in Native Community-Based Language Revitalization. This grant recognizes our continued innovation in Native American & Indigenous Studies and continues the trajectory of our previous two Mellon grants.

Congratulations again, Deanne and Janine--we can't wait to see the Hub come to life on our campus. We have much exciting work ahead!

Best,  
Cheryl
