The Common Reading Experience book selection is *Thinking in Pictures: My Life with Autism*, by Temple Grandin. Temple Grandin, Ph.D., is a gifted animal scientist who has designed one third of all the livestock-handling facilities in the United States. She also lectures widely on autism, because Grandin herself is autistic, thinking, feeling, and experiencing the world in ways that are incomprehensible to many of the rest of us. Read the book and join the conversation!
