Animas Residence Hall

**ANIMAS RESIDENCE HALL AND THE FACULTY IN RESIDENCE PROGRAM** will cultivate a sense of intellectual curiosity as well as provide a unique dynamic by bringing the student-teacher relationship outside the classroom and into the living environment. A full-time faculty member and his/her family make their home in Animas Hall. Both informal interactions between faculty and students and engaging purposeful programs will foster dialogue covering broad topical areas such as education, social responsibility, civic engagement and personal growth.

Animas Hall is a modern, environmentally friendly (LEED Gold) facility. It has a multi-purpose classroom, fully-equipped community kitchen, computer lab and a main lounge located on the first floor. Each residential floor has a lounge, quiet study room and laundry room.
